The Transport Industry

**BENEFIT PLAN
POLICY INFORMATION**

A Leader in Group Benefits Since 1967

WHY CHOOSE THE Transport Industry? B E N E F I T P L A N

The Transport Industry Benefit Plan (TIBP) primarily targets Canadian trucking firms involved in long-haul, short-haul, truck sales, manufacturing, servicing and parts. Since 1973, the TIBP has established a large, stable pool of trucking firms. This large pooling arrangement has achieved an economy of scale, which has translated into TIBP's ability to deliver quality benefits at very competitive prices.

With local offices, the Transport Industry Benefit Plan is better able to offer close, fast support to the servicing needs of the trucking industry.

Whelton Insurance Consultants Ltd. is a major insurance broker in British Columbia managing corporate clients throughout Canada and the United States.

- Low administration costs due to economy of scale
- Flexible plan design
- High non-medical maximums
- Self Funding at 6% of claims
- Stable premium structure
- Professional assistance in designing employee benefit plans
- Reviewing collective bargaining agreements and proposals
- Analyzing group administration and claim servicing problems
